

# Théo Dubois

[theo.dbs6610@gmail.com](mailto:theo.dbs6610@gmail.com) • France • [LinkedIn](#) • [Github](#)

Full Stack Developer with a strong interest in Web3 and DevOps. Eager to learn and grow, I aim to contribute my skills to innovative projects within a dynamic team.

## Experiences

---

- Gnoland - Grant | Remote** december 2024 - march 2025
- Developed a plugin for the Gno language on JetBrains IDE
  - Weekly meetings to review progress with a core team member
- Gnoland - Grant Explore | Remote** september 2024 - october 2024
- Smart contract development
  - Asynchronous communication
  - Documentation
- Hackathon - Blockchain | Vierzon (18)** october 2024
- NFT POC to store and pay invoices via blockchain
  - Second place - CACIB / so | cash use case
  - €3000 in winnings
- Gnoland - Internship | Remote** march 2024 - june 2024
- SCP Students Program, internship during which I developed my curiosity about the world of Web3 through the Gnoland blockchain.
- Developed packages / smart contracts
  - Created and updated documentation
  - Weekly calls to track deliverables
- U-Manage - Apprenticeship | Canteleu (76)** december 2023 - july 2025
- Apprenticeship as full stack web developer on software enabling efficient risk management, simplified compliance, and real-time tracking of deadlines.
- Resolved 200 clients tickets / Deployed 2 client environments
  - Upgraded environments
  - Developed new features within tight deadline

## Formations

---

- **RNCP 6 - Concepteur & Développeur d'application | Zone01 - Rouen (76)** 2022 - 2025  
Certification obtained with honors from the jury (2 out of 40). The school, based on project-based peer-to-peer learning, allowed me to learn through real-world cases and taught me how to adapt when I need to use a new programming language for a project.
- **BTS Technico-Commercial | Lycée Paul Guérin - Niort (79)** 2019 - 2021  
Skills developed : sales, client follow-up, prospecting, negotiation, teamwork
